## *The Distinguished Europeans*

Language barriers exist. But, more than ever, type is universal. The Continental type faces displayed come from some of Europe's most distinguished foundries and designers.

They are produced by craftsmen at such firms as *Lettergieterij Amsterdam* in Holland; *Stempel, Berthold and Ludwig & Mayer* in Germany; *Haas* in Switzerland; *Nebiolo* in Italy; *Mouldtype* in England. And they are reproduced for Amsterdam Continental from original matrices to maintain absolute integrity of design.

These letter designs provide subtle and distinctive shadings for fine graphic materials throughout the world. Amsterdam Continental takes pride in bringing these important European type faces to America.

Most of these types are stocked in New York, Chicago and Burbank, California, as well as by a number of distributors in major American cities. With few exceptions they are available on the American point body.

*Complete specimen showings of the faces that interest you are available on request.*
