Foreword . . .

typefounders OF CHICAGO presents this type catalogue in a concise and advisory manner to aid the user in the selection of proper type faces for specific jobs. The choice of the correct type face in printing and typographic design is an important and practically basic step in providing the high calibre of work required in this exceptionally competitive field.

Advertising agencies, art studios, typographers and all other trades allied to the end product—the printed piece—must realize that the public is educated today to recognize good creative printing. The reading public can very readily discern the difference between well planned printing, and a hastily concocted job with no thought to the proper selection of type. The consumer many times judges the product by the kind of advertising it employs to present itself to the public at large. And that is an important reason why type—both the old faces and the new American and European creations—plays such an important part in industry today.

Used in its proper perspective a type face will lend individuality, character, and personality to a piece of advertising matter. An advertising campaign to promote the sale of cologne, will of a certainty use types which give an effect of feminine curves and lines. It will employ the use of faces which breathe an aura of lightness yet lasting beauty. Contrarily, in a masculine field if the thought which is to be conveyed is strength, durability, and far reaching scopes, then the type selected should have the feeling of the above solid attributes creating bold and impressive effects.

Therefore, this catalogue has been compiled of the type faces which we believe are used or should be used extensively in the industry at the present time; and also there will be found here many faces which are considered ancient but still useful and usable in certain kinds of jobs. We do not wish to go into a debate here regarding which is old type and which is new. Many type sages say that only the names are new when previously unheard of types are presented, but that the basic families are as old as printing itself. That is why we did not delete from our compilation many "old" faces.

Each type face has individual qualities, style, and stature which are mobile with expression to create the desired effect. Because of this, hand-set type is so versatile—due to the great selectivity compositors enjoy. Mechanical methods cannot compare with hand set composition. Hand typesetting offers a refreshing relief from the hardness of mechanical composition. Hand-set type remains supreme in proper selection for creative work.

The type faces chosen in this new specimen book encompass the very old and the very new. The user will find the ordinary every day faces, the useful gothics, the new cursives, and even the newest #614—20th Century Ultra Bold Extended, Standard, and Columbia Series.

Domestic type faces shown in this specimen book are produced by **typefounders OF CHICAGO** in our own foundry. The imported types shown are of European design and sent to us by Amsterdam Continental. **typefounders OF CHICAGO** is proud to present this reference to its friends in the trade with the earnest desire that this book will be of great aid in helping the user produce finer work in this very noble profession—printing.

Pertinent Facts About Our Type and Services

TYPE: typefounders of CHICAGO's products are produced on Thompson type casters, monotype sorts casters, giant casters, and composition casters. The metal used is of different formulae for the various point sizes of type, and for specific families of type faces. These formulae are tried, tested and true. We employ a hard foundry metal for display sizes due to the advent of etch proofs, and a less tin formula for the composition and giant caster sizes. In no instance is the metal used in casting our type less than government standard—9% tin and 19% antimony. Our lineup is standard, but any other lineup can be matched.

SORTS, LINES: Sort lists are available for ordering individual characters or lines. A Cap "H" and lower case "m" are required with order if type desired is already in cases in your plant. There is no extra metal charge for sorts and lines: it is included in the price.

HANDY BOXES: Immediate delivery for these convenient miscellaneous symbols, signs, borders, ornaments, fractions, etc.

STRIP SPACING MATERIAL: The products of nationally known CASTCRAFT are distributed by typefounders of CHICAGO. Castcraft manufactures spacing material from 1 Pt. leads through 72 Pt. giant size furniture in all heights ranging from .765 regular height; 853 for zinc work; 875 for broaching use; and 895 for Fair child Base.

RULES AND BORDERS: Hand finished rules from 2 Pt. through 36 Pt. inclusive as made by CASTCRAFT, and Mono decorative borders also made by this leading strip material firm are distributed by typefounders of CHICAGO. Several of the back pages show specimens of these items.

QUADS AND SPACES: Obtainable immediately from our large stock of all sizes both in the regular height and in the special .853 height. We also specialize in quotation quads.

COMPOSING AND PRESS ROOM EQUIPMENT: A separate department for the handling of all types of equipment has been established to give quick and expert service on all needs of the printer or typesetter. Specimen booklets on any item of machinery will be sent upon request including such miscellaneous items as wood type, galleys, wood furniture, padding glue, type wash, galley cabinets and galleys, type cabinets and cases.

TYPE METAL: typefounders of CHICAGO will many times offer to the trade linotype and monotype metal at great savings.

METAL EXCHANGE: Scrap metal, dross, old plates and cuts on or off the block will be accepted in trade for the various items shown in the catalogue or will be bought for cash. Send for specific information and price list if you have scrap lino, mono, foundry, stereo, copper half tones, zinc plates, electros, etc., to trade in.

General Information

PRICES: Font prices for each size are shown both for caps and lower case and then for the entire font. The font scheme is also shown so that the user may determine the number of fonts needed. Due to market fluctuations in the cost of metal the prices may be changed without notice. Quantity prices will be furnished upon request. Prices are F.O.B. Chicago—Terms are NET.

C. O. D.: Collect on Delivery shipments will not be made to firms without ratings unless sufficient payment accompanies order to cover transportation charges both ways. This is done in the event that the goods are not accepted.

CREDIT: To firms of recognized credit standing open account courtesies are extended. On out of town shipments a deposit of 25% is required with order, and the balance C.O.D. unless the purchaser has established credit with us.

ORDERS: Purchase orders should specify name of type face in full, series number as shown in catalogue, point size, the number of caps and lower case fonts desired.

SHIPPING: Orders are shipped out the same day or at the latest the next day they are received. We have a large inventory of all items shown in this catalogue and are able to fill orders that quickly. Complete shipping instructions should accompany orders. If method of shipping is not specified we will ship the most economical way. It would be preferred, however, if the user would state whether order should go Freight, Truck, Express, Parcel Post, etc.

RETURNS: Fonts may be returned for full credit if in their original packages. Broken packages, sorts, composed lines of display type, and special characters will be accepted at used metal prices. We strongly urge that all fonts be PROOFED BEFORE LAYING.

MATCHING: When ordering type which is already in cases in your plant, and which we show in our catalogue a Cap "H" and a lower case "m" from each font desired should be sent with order so that proper alignment and other features may be checked. We can match type even if produced by other manufacturers.

Specimens shown in this catalogue are available for immediate shipment. The index will show monotype code numbers of domestic faces if they have numerical identification.

EMBLEMS - SEALS - HANDY PACKAGES - SORTS - LINE SERVICE, and STRIP MATERIAL are illustrated in the back pages of this book.

The number of ligatures (fi, fl, etc.) and special characters contained in each font are approximately the same as the lower case q, x and z.

TYPE

typefounders OF CHICAGO has and can secure any size from 4 pt. through 120 pt. in metal type. We also stock a wide selection of wood type if sizes larger than 120 pt. are required for certain jobs. It is our aim to please the most discriminating type selector (even if the job needs the touch of a typographic artist) by virtue of the wide array of faces and sizes we have available for immediate shipment. This great selectivity may be had from either the domestic type of our own make, or the foreign type which we import.

typefounders OF CHICAGO is the most progressive type foundry in the country. A visit to our plant is an education in itself. Please visit us whenever you are in Chicago.

A TYPE SELECTION

is to a typographer what a palette of paints is to an artist. Desired graphic effects can be obtained only when the facilities and type faces to produce them are available. Selections from this book can show the way.

Type Metal Used—

EVERY type face shown in this catalog from 14 point up is cast from the very best grade hard foundry metal. In certain faces, such as card gothics, Bankers Gothic and various book faces used by educational institutions, identifying aids have been added. These are also cast in hard foundry metal from 6 to 12 point.

NEW and SEMI NEW Faces:

There have been a few new type faces of domestic and European origin recently produced which are being used extensively throughout this country. **TIMES BOLD**, or as it is sometimes called in different areas, **TIMES NEW ROMAN BOLD**, and shown on page 25, has recently added to its family the 14 pt. through 72 pt. inclusive. We show the larger sizes on this page because of the two names given to the type face.

TIMES SEMI BOLD, **PAGODA BOLD** and **SLIM LINE** — three other newer faces — have a definite place in display work. These styles are cast on Thompson foundry casters, and Giant casters here in our own foundry and made from hard type metal.

On the adjacent page (28) faces such as **GREETING MONOTONE**, **CAMEO**, **HADRIANO**, and **BANNER**, although not too recently cut are suddenly becoming popular. The demand for these faces has answered the question as to whether or not only straight type would be used in display due to the avalanche created by the European foundries with their **Venus**, **Standard**, **Futura** and **Grotesque**

series. The requests for the type shown on page 28 have increased both from adsetters and agencies and that is why we have included them in this catalogue, and particularly in this position.

OLD Faces:

We have removed from this book two old faces—**PABST** and **POWELL**—in addition to others not so well known. However if these are desired we can supply them immediately.

MORE THAN 600 FACES

Choose from TFC's new and more extensive selections shown on the pages of this catalog. Ask for what you cannot locate immediately—we can get it for you.

FOREIGN SECTION SPECIMEN LINES

We have exclusive distribution rights for Amsterdam Continental type faces in the following states only: Illinois, Indiana, Michigan, Wisconsin, Ohio, Kentucky, Missouri, Minnesota, Iowa, Kansas, Nebraska, North Dakota and South Dakota.

The figures underneath each specimen line designate the point sizes in which these faces are made. The "S" and "L" show that certain point sizes are made in both the small and large type. After the point sizes will be found either a cap "A, B or H." These code letters indicate the foundries in which the various type faces are made. Amsterdam Type Foundry is designated by the cap "A"; Berthold Type Foundry of West Germany, and Haas Type Foundry of Switzerland are specified by the "B" and "H" respectively.

The following type faces are of European design. These are available for immediate delivery from our ample inventory.

SORTS AND LINES display service

When your needs merely require a display line or a few sorts specify T F C "Sorts and Line Service." Choose from any of the representative type faces shown on the following pages. Sizes range from 6 point to 144 point. Type faces are identified as (M) Monotype; (F) Foundry Type; (M-F) Monotype or Foundry Type. Tables show prices per running inch or fraction thereof. No extra metal charges. No spacing or justification—except when requested or necessary for angle body types. Lines justified-to-measure or letter spaced to specified widths invoice at regular hand composition time rates. Minimum charge for each size end face is \$2.00. Minimum order \$3.00.

MONOTYPE * Per inch

14 to 24 point.....25c	60 point.....45c
30 to 36 point.....30c	72 and 84 point...49c
42 and 48 point.....41c	

FOUNDRY TYPE * Per inch

14 to 24 point.....50c	72 point.....98c
30 and 36 point.....59c	84 point.....1.10
42 and 48 point.....70c	96 point.....1.23
60 point.....86c	120 point.....\$1.36

EZE-RULE UNITS

SIMPLICITY RULE FORM COMPOSITION - Durable - Convenient - Accurate - Plentiful

12 pt.—Font, weighing 5 to 6 lbs., per lb.....95c

24 pt.—Font, weighing 5 to 6 lbs., per lb.....95c

14 pt.—Font, weighing 5 to 6 lbs., per lb.....95c

30 pt.—Font, weighing 5 to 6 lbs., per lb.....95c

16 pt.—Font, weighing 5 to 6 lbs., per lb.....95c

36 pt.—Font, weighing 5 to 6 lbs., per lb.....95c

18 pt.—Font, weighing 5 to 6 lbs., per lb.....95c

Fonts contain assortment of 1, 1 1/2, 2, 2 1/2, 3 and 4 pica widths. Sells at \$1.00 pound in lots of not less than 1 pound of a character.

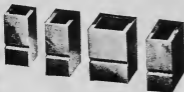

NOTE—Best results are obtained by using Ezy-Rule Units only for narrow columns and substituting our strip rule number 2018 (page 97) for longer measures.

QUADS and SPACES

A shortage of spacing material in the composing room causes much lost time and diverts the compositor's mind from the job he has in hand. Spacing material is inexpensive—a plentiful supply will go for toward plugging the lack and keeping your compositors in proper humor to deliver the best that is in them.

Quads and spaces are sold in job fonts, 2½ and 5-lb. packages. Buy them the most economical way to suit the needs of your own particular composing room.

CORNER QUADS

The use of Corner Quads for bracing mitered borders is recommended. These rugged angle quads prevent rules from slipping past each other; insure a better joint. Get T F C Corner Quads for proper lock-up on any form where strip rules or slugs are used.

No-Ride-Up COLUMN RULE

To prevent work-up of column rules in newspaper and other long column forms use T F C NO-RIDE-UP RULE. Manufactured with tapered sides, No-Ride-Up Rule eliminates objectionable "ride-up"—see illustration.

Showing No-Ride-Up Column Rule No. 6028 in use. The tapered sides of the rules and line type slugs grip firmly and prevent "ride-up"

LEADERS

Metal leaders are made on 6, 8, 10 and 12 point bodies, and cast in pico units. The 6 point series contains an assortment of 6x6, 6x12, 6x24 and 6x36 pieces; 8 point—8x6, 8x12, 8x24 and 8x36; 10 point—10x6, 10x12, 10x24 and 10x36; 12 point—12x6, 12x12, 12x24 and 12x36. Leaders are packed in 5 lb. assorted packages, and can also be purchased in bulk in any desired quantity at \$1.05 per lb. on orders for not less than one pound of a character.

ELROD MATERIAL FACTS

WIDTHS:

Castcraft strip spacing is available in widths ranging from 1 pt. thru 72 pt. This takes in also sizes such as 8, 10, 14, 16, and 30 pt.

HEIGHTS:

Special height strip material in many widths may also be ordered for use with zinc work—.853; broaching and tabular—.875; and for Fairchild base—.895.

SPECIALS:

UNUSUAL HEIGHTS and widths for particular and specific composition problems are procurable thru our mold department which specializes in making molds for such projects. Our Elrod mold department also repairs molds for customers who have strip casting machines and who wish to avail themselves of this service.

HAND FINISHED RULES AND FANCY BORDERS:

Experienced craftsmen in our plant operate rule benches and hand planers to provide the finest rules which are micrometer perfect. These rules are checked and inspected before packaging to insure that there are no nicks, air holes, or irregularities in heights. Borders are cast on the monotype material matters and are also carefully inspected for cold spots and damaged faces.

NEW TYPE METAL:

Linotype and monotype metal of our own manufacture are available to the trade at great savings. Inquiries regarding dealerships for the distribution of our products are invited.

METAL FURNITURE

Price Quotations upon request

Metal Furniture is very practical in that there is no shrinking, or warping, or bulging of the spacing material in locked forms. It assures a tight, even lock-up, eliminating much piecing, dropped letters and "out-of-alignments."

Stocked in 24 inch strips and precision cast from linotype metal. Widths — 2, 3, 4, 5, and 6 picas (cored).

Metal furniture can be furnished sawed and trimmed to any desired length, in lots of not less than 20 pieces of a size at 6¢ lb. extra and shipped promptly. Minimum width 2 picas; minimum length 7 picas.

LEADS AND SLUGS

Price Quotations upon request

Leads and Slugs of our manufacture are accurately made from new linotype metal, which enables the printer operating machine composition equipment and non-distribution to re-melt them freely with dumped forms without danger of injuring his metal alloy, and also assures greater value when sold as old metal.

They are made in 2, 3, 4, 6, 8, 10, 12, 16, 18, 24, 30, and 36 point, and 12 point tie-up slugs, and carried in stock in 24-inch strips, or cut and trimmed to size.

Cut to any length over 10 picas....6¢ lb. extra
Under 10 picas.....time only

Spacing material for use with zinc plates .853 high available from 1 pt. leads thru 72 pt. giant furniture. Spacing material for use on broaching jobs .875 high available from 1 pt. leads thru 36 pt. slugs.

... Acknowledgement ...

If to the reader this closing portion of our catalogue is a bit removed from the usual space consuming text of "shouting our wares," we ask your indulgence. We could have easily outlined here that we sell, in addition to type and strip material, composing and press room equipment; and that we also liquidate plants.

However, we feel that our friends and customers should know something about this company, and to whom we are gratefully indebted for our modest achievements.

There are certain individuals who have helped us when the task of building was extremely difficult. It is a major undertaking for newcomers to compete with established firms in the printing trades—especially in a service business. The road to forming a type foundry from practically nothing was a hard and rugged one; and only through the confidence displayed by these people were we able to forge ahead in spite of the many obstacles with which we were confronted.

Outstanding and foremost in the ranks of our supporters — and without whose encouragement we never could have achieved the amount of success, such as it is, that we enjoy today — are our beloved parents Mr. and Mrs. Samuel Kreiter.

They spurred us on to greater efforts with their aid and comfort when we were ready to throw down the gauntlet. Their constant reminders that we owe it to ourselves and to our fellow citizens in this trade to create an institution which will benefit the industry, blazoned our trail, and paved the way for us to attain this semblance of success. Our parents pointed out to us that this Middle West needed another good all around type foundry and that Chicago was the natural place for it. Their consistent faith in us, the Good Lord bless them, is our guiding beam.

Among the others who have cooperated with us and who have pushed aside many obstacles in our path are Edwin C. Kehe of Western Newspaper Union whose friendship cannot be measured, and Western Newspaper Union itself whose patronage is an honor to any company which serves it.

The head of Acme Type Foundry of this City, Harry Levin, who has few peers in the type field, has also helped immeasurably in weaning our infant foundry to its manhood.

And then, and by all means not least, we have found a new friend in Henry Spero of Type & Press of Illinois, Inc. whose straightforward business practices in the plant liquidation category of the graphic arts trade we wish to emulate if we are ever called upon for such work.

There are others, of course, who but for lack of space would be mentioned here. However, we feel that this catalogue is a tribute — not to us — but to our loyal customers in this noble field — printing — whose patronage and support helped build an organization which started with only a second hand car, after our return from service in 1946, to a large foundry for the printing industry which houses —
CASTCRAFT PRINTING SUPPLY and *typefounders* OF CHICAGO.
